TRIBE GOES TO ZANZIBAR AGAIN

The result of a collaboration between world known artist Luciano and the team behind award winning Caprices Festival, TRIBE GOES TO ZANZIBAR AGAIN this time collaborating with ITER which is a concept of a holistically organized musical trip.

Discovery of a region, exclusive musical events in places as typical as they are idyllic, immersion into local culture, moments of wellbeing, culinary pleasures, sharing of emotions with a group of travel festival-goers linked by common passions.

For the third year in a row after two successful events in 2021 and 2022, the choice of the organizers to return fell without hesitation on the destination of Zanzibar, which offers the ideal playground and unforgettable experience to its visitors. Breathtaking landscapes, crystal clear waters, white sands, preserved and authentic environment, a feeling of total security, extremely kind local actors, delicious food and an extremely rich flora and fauna.

So many ingredients that TRIBE and ITER will incorporate into its magic potion to offer an unforgettable stay, combining shows with internationally renowned artists in intimate spaces, with moments of wellbeing that will trigger all the senses of each visitor.

On each trip, TRIBE and ITER binds itself to a local social cause allowing support for the local culture, raising awareness and helping with the problems that the region encounters.

Meanwhile, Tribe with our adventures we span the globe, offering tribe members exclusive and luxurious experiences, from lively festivals to transformative wellness retreats. This tribe introduces additional holistic activities that deeply connect you with your inner self, enriching the journey.
